

**William M. Briggs, PhD**  
Statistical Consultant  
300 E. 71st Apt. 3R, New York, NY 10021

#### 1. EXPERIENCE

(1) 2003-PRESENT. RESEARCH SCIENTIST, NEW YORK METHODIST HOSPITAL, NEW YORK

(2) 2008-PRESENT ADJUNCT PROFESSOR OF STATISTICAL SCIENCE, CORNELL UNIVERSITY, ITHACA, NEW YORK

I teach a course to the Emergency Medicine and Surgical residents in basic probability and statistics, and I consult on departmental research projects and maintain several of their study databases. I sit on the Institutional Review Committee as a guest member to review the statistics of proposed research. Helped in the preparation and submission of grants to the NIH and for-profit entities.

(3) 1998-PRESENT. STATISTICAL CONSULTANT, VARIOUS COMPANIES

Build databases, provide analytic support and data analysis, create simple but informative graphics, teach small and large classes in statistics, critical thinking, use of software, write articles, and so forth.

(4) 2007, VISTING PROFESSOR OF STATISTICS, DEPARTMENT OF MATHEMATICS, CENTRAL MICHIGAN UNIVERSITY, MT. PLEASANT, MI

(5) 2003-2007, ASSISTANT PROFESSOR STATISTICS, WEILL MEDICAL COLLEGE OF CORNELL UNIVERSITY, NEW YORK, NEW YORK

(6) 2004-PRESENT ADJUNCT ASSISTANT PROFESSOR OF STATISTICAL SCIENCE, CORNELL UNIVERSITY, ITHACA, NEW YORK

My research interests are prediction and forecast accuracy and usefulness; skill and cognitive biases in prediction; practical decision analysis; dynamical and ensemble forecasting; graphical data display; climate variability; philosophy of statistics and probability; Bayesian foundations and the nature of evidence; Bayesian probability as it's used in physics and atmospheric science; and the adoption of Open Source software for statistics, particularly the development of the DRCLAMP web-based database (drclamp.com). I teach courses in statistics, emphasizing both Bayesian and classical methods, and I consult and perform analyses on the department's wide array of studies.

Assisted in the preparation and submission of many, many grants to various private and public institutions. I wrote design and data analysis plans plus co-wrote the methods sections. Became honorary *Santa Claus* mathematician (see [wmbriggs.com](http://wmbriggs.com)). Santa uses ensembles!

I teach various statistics courses (introductory and advanced levels), and I mentored several Masters students.

(7) 2002-2003. GOTHAM RISK MANAGEMENT, NEW YORK

A start up then, after Enron's shenanigans, a start down. We set future weather derivative and weather insurance contract prices that incorporated information from medium- and long-range weather and climate forecasts. A white paper is available on my web page.

(8) 1998-2002. DOUBLECLICK, NEW YORK

I built an expensive and huge optimization engine for a web-based ad matching network, the details of which are terribly dull. Short version: click-through optimization, enormous database with about  $10^8$  names, updated daily, clever modelling and scoring, all heavy-duty computational statistics.

- (9) 1993-1998. GRADUATE STUDENT, CORNELL UNIVERSITY  
Started studying how long-range climate forecasts interacted with a crop model in the Atmospheric Science group, then switched to full time statistics. Was involved in the long-running environmental statistics consulting group, did work in tensor product splines and image analysis, then finished with practical decision analysis work. Was Vice Chair of the graduate student government.
- (10) 1992-1993. NATIONAL WEATHER SERVICE, SAULT STE. MARIE, MI  
Forecast storms o' the day and launched enormous balloons in the name of science. My proudest moment came when I was able to convince an ancient IBM-AT machine to talk to an *analog*, 110 baud, phone-coupled (!) modem, all using BASIC.
- (11) 1992-1993. SAULT STE. MARIE. *Evening News*  
I wrote a free-lance science column for which I received free papers. And I was grateful for them.
- (12) 1989-1992. UNDERGRADUATE STUDENT, CENTRAL MICHIGAN UNIVERSITY  
Basic undergraduate meteorology degree, with an emphasis on dynamics and math. Started the local student meteorology group, which is now affiliated with the AMS. Was involved with an FAA experiment of de-icing fluids. Spent a summer at U Michigan in a NSF REU program playing with a lidar used to model boundary layer dynamics. Won the Howard T. Orville scholarship from the AMS.
- (13) 1983-1989. UNITED STATES AIR FORCE  
Cryptography and other secret stuff. Shot things, learned pinochle. I adopted and became proficient with fascinating and versatile military vocabulary. Ask me for examples. TS/SCI+ security clearance.

## 2. ACTIVITIES

- (1) DRCLAMP, PH.P. open-source project creator & leader. The primary purpose of Dr. Clamp is to have one web site to manage and enter data, track progress, view reports, draw graphs, and analyze statistics. It was primarily designed for clinical trials, but it works for any study where the data are best entered through a web page. Go to [drclamp.com](http://drclamp.com) to play with the demo.
- (2) *Monthly Weather Review*: Associate Editor.
- (3) *American Meteorological Society*: Member of the Probability and Statistics Committee. Plan for short courses and regular meetings. Helped draft the AMS's statement on probability forecasts.
- (4) **R**. Development work on the **verification** package, which is maintained by Matt Pocerlich at the National Center for Atmospheric Research, who has done 99.99% of the work. I wrote the (outline of) skill function. Go to [cran.r-project.org](http://cran.r-project.org) to download.

- (5) *Data Safety and Monitoring Boards* and other similar activities. Current board member for a Columbia study involving medication adherence in hypertension patients.
- (6) *Consultant*—standard statistics consulting. Listed as a consultant on several active and pending grant submissions for studies at Columbia and New York Methodist Hospital.
- (7) *Reviewer J American Statistical Association, Statistics in Medicine, Monthly Weather Review, Weather and Forecasting, J Geophysical Research, Journal of Applied Meteorology and Climatology*, National Science Foundation, others.

### 3. EDUCATION

- (1) Ph.D., 2004, Cornell University. Statistics.
- (2) M.S., 1995, Cornell University. Atmospheric Science.
- (3) B.S., Summa Cum Laude, 1992, Central Michigan University. Meteorology and Math.

### 4. PUBLICATIONS

#### 4.1. Scientific work.

##### 4.1.1. Books.

- (1) Briggs, WM., 2008 *Breaking the Law of Averages: Real Life Probability and Statistics in Plain English*. LULU Press, New York. In Press.

##### 4.1.2. Draft papers (partial).

- (1) Briggs, WM, RA Zaretski, 2008. Some new posterior predictive diagnostic tools *Draft*.
- (2) Briggs, WM, RA Zaretski, 2008. A logical, objective derivation of the binomial and its prior *Draft*.
- (3) Briggs, WM, 2007. Changes in number and intensity of world-wide tropical cyclones *arxiv.org/physics/0702131*.
- (4) Briggs, WM, 2007. On the non-arbitrary assignment of equi-probable priors *arxiv.org/math.ST/0701331*.
- (5) Briggs, WM, 2007. Broccoli Reduces The Risk of Splenetic Fever! The use of induction and falsifiability in statistics and model selection. *arXiv:math/0610859*.

##### 4.1.3. Peer-reviewed methods papers.

- (1) Zaretski R, Gilchrist MA, Briggs WM, 2008. MCMC Inference for a Model with Sampling Bias: An Illustration using SAGE data. *Statistics in Medicine*. In review.
- (2) Briggs, WM, 2004. Discussion to T Gneiting, LI Stanberry, EP Gruit, L Held, NA Johnson, 2008. Assessing probabilistic forecasts of multivariate quantities, with an application to ensemble predictions of surface winds. *Test*. **17**, 240-242.
- (3) Zaretski, R, Briggs, W, Shankar, M, Sterling, M, 2007. Fitting distributions of large scale power outages: extreme values and the effect of truncation. *International Journal of Power and Energy Systems*. In press.

- (4) Briggs, WM, 2007. On the changes in number and intensity of North Atlantic tropical cyclones *Journal of Climate*. **21**, 1387-1482.
- (5) Briggs, WM, Positive evidence for non-arbitrary assignments of probability, 2007. Edited by Knuth et al. Proceedings 27th International Workshop on Bayesian Inference and Maximum Entropy Methods in Science and Engineering. American Institute of Physics. 101-108.
- (6) Briggs, WM, R Zaretzki, 2007. The Skill Plot: a graphical technique for the evaluating the predictive usefulness of continuous diagnostic tests. *With Discussion. Biometrics*. **64(1)**, 250-6; discussion 256-61. PMID: 18304288.
- (7) Briggs, WM, and D Ruppert, 2006. Assessing the skill of yes/no forecasts for Markov observations. *Monthly Weather Review*. **134**, 2601-2611.
- (8) Briggs, WM, M Pocernich, and D Ruppert, 2005. Incorporating misclassification error in skill assessment. *Monthly Weather Review*, **133(11)**, 3382-3392.
- (9) Briggs, WM, 2005. A general method of incorporating forecast cost and loss in value scores. *Monthly Weather Review*, **133(11)**, 3393-3397.
- (10) Briggs, WM, and D Ruppert, 2005. Assessing the skill of Yes/No Predictions. *Biometrics*. **61(3)**, 799-807.
- (11) Briggs, WM, 2004. Discussion to Gel, Y, AE Raftery, T Gneiting, and V.J. Berrocal, 2004. Calibrated Probabilistic Mesoscale Weather Field Forecasting: The Geostatistical Output Perturbation (GOP) Method. *J. American Statistical Association*. **99 (467)**: 586-587.
- (12) Mozer, JB, and Briggs, WM, 2003. Skill in real-time solar wind shock forecasts. *J. Geophysical Research: Space Physics*, **108 (A6)**, SSH 9 p. 1-9, (DOI 10.1029/2003JA009827).
- (13) Briggs, W.M., and R.A. Levine, 1997. Wavelets and Field Forecast Verification. *Monthly Weather Review*, **25 (6)**, 1329-1341.
- (14) Briggs, WM, and DS Wilks, 1996. Estimating monthly and seasonal distributions of temperature and precipitation using the new CPC long-range forecasts. *Journal of Climate*, **9**, 818-826.
- (15) Briggs, WM, and DS Wilks, 1996. Extension of the CPC long-lead temperature and precipitation outlooks to general weather statistics. *Journal of Climate*, **9**, 3496-3504.

#### 4.1.4. *Reviews.*

- (1) Briggs, WM, 2007. Review of *Statistical Methods in the Atmospheric Sciences* (second edition, 2006) by Wilks, D.S. *Journal of the American Statistical Association*, **102**, 380.
- (2) Briggs, WM, 1999. Review of *Forecasting: Methods and Applications* (third edition, 1998) by Makridakis, Wheelwright, and Hyndman; and *Elements of Forecasting* (first edition, 1998) by Diebold. *Journal of the American Statistical Association*, **94**, 345-346.

#### 4.1.5. *Peer-reviewed collaborative papers.*

- (1) Marcus D'Ayala, Todd Huzar, Matt Briggs, Bashar Fahoum, Shannon Wong, Leslie Wise, and Anthony Tortolani, 2008. The impact of blood transfusion on the clinical outcomes of patients undergoing major amputation. *Annals of Surgery*. In review.

- (2) Morteza Tavakol, Kashif Z Hassan, Raushan K Abdula, William Briggs, Gheeta Bhumireddy, Charles E Oribabor, Anthony J Tortolani, Terrence J Sacchi, Sorin J. Brener, Leonard Y Lee, John F Heitner, 2008. Utility of B-Type Natriuretic Peptide as a Predictor of Atrial Fibrillation After Cardiac Surgery . *Annals of Thoracic Surgery*. In submission.
- (3) Mancuso, CA, T Choi, H Westermann, WM Briggs, S Wenderoth, 2008. Asthma patients are more likely to have a positive screen for depression with the center for epidemiological studies depression scale-SF than with the geriatric depression scale. *J Clinical Epidemiology*. In review.
- (4) Zandieh, SO, Briggs WM, Kuder JM, Sparer M, Gershel J, Mancuso CA, 2008. Negative perceptions of healthcare among caregivers of children auto-assigned to a medicaid managed care health plan. *Archives of Pediatric and Adolescent Medicine*. In review.

## 5. COURSES TAUGHT

- (1) Introductory Statistics. Define probability, randomness, and statistics. The difference between Classical and Bayesian statistics is emphasized, particularly in how evidence is measured. The student will, by the end of the class, be able to read and broadly understand many of the results contained in the statistics section of non-statistical journals.
- (2) Intermediate Statistics. A hands-on course. Exploratory data analysis and the importance of graphical methods. Categorical data and contingency table analysis. Practical linear and logistic regression. I use the R software to teach the course and maintain a web site for students to download code and data. Seems to work well.

- (3) Advanced Statistics. Multivariate statistical methods: factor, cluster, and discriminant analysis. Practical survival analysis and proportional hazards regression. Hierarchical and linear mixed models, generalized estimating equations, likelihood, and Bayesian Markov chain Monte Carlo methods.

## 6. LANGUAGES

R, SAS, SPSS, PHP, Perl, Matlab, Octave, Fortran (yes, really, but rustily), C, ML (I'm working on this one because it is very slick), SQL, DHTML, some Java and Javascript, Linux scripting (by no means not an expert), and of course  $\text{\LaTeX}$ .

## 7. MEMBERSHIPS

- (1) American Statistical Association
- (2) Institute of Mathematical Statistics
- (3) American Meteorological Society
- (4) American Geophysical Union
- (5) American Association for the Advancement of Science
